Agents of Change

Today, every single child will be coming home with their very own Agents of Change poster. These beautiful posters, created with the help of a designer and artist, have been printed on thick card to last the duration of your child's time at St Lawrence. Next week pupils will also be given their very own PASSPORT so that each time they complete one of the objectives, they will get a sticker from Mrs Malcolm and have their passport stamped. Because Agents need their own passports!

For now they will keep these passports in school so that we can work on projects together in class, but if your child completes anything at home LET US KNOW so that they can get their book stamped and share with us what they've been working on!

What would you change to give someone confidence?

Winning answer by Michael in Orange Circles

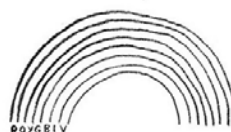

I have never been down a water slide, but I will do one day, so I will tell myself, "I am brave!"

Winning answer by Sophie in Year 3

I would change fear because fear does not do anything at all for you.

Headteacher Awards

Monroe, Elsie, Megan,
Josh, Ella, Dylan,
Bobby, and William in
Year 1; ALL of Year 3

CELEBRATING EACH OTHER, AND THE JOURNEY WE ARE ON

Maths

Children of all abilities in every Year group work on their maths skills daily. Staff are regularly trained on new and existing approaches to help meet everyone's needs and provide the best possible lessons, and are happy to answer any questions that you have on what your child is currently working on. We know that some children love maths, and some find number work tricky, but EVERYONE work really hard and we are proud of them every day.

Garden Plans in Year 3

Children in Year 3 have been inspired by the story by their class author A Child's Garden. They have decided to brighten up the playground outside their classroom, and have drawn plans and written letters to companies and Mrs Malcolm and Mrs Legge to ask for equipment and seeds to help them. Thank you so much to the families who have made donations for their project, we can't wait to see what they create!

Solar Panels

We had an exciting delivery this week of solar panels to be installed on our roof. We are so pleased that we will be creating our own energy, and can't wait to find out more about how they work and how they help the environment.
