Year 4 Squares

Last week Year 4 Squares explored how vibrations from sounds travel through a medium to the ear. The children conducted four different experiments to understand and compare how sounds and soundwaves can travel through air, liquids and solids. They were awesome scientists and made some interesting discoveries – great work!

During PE, they worked on circuit training to build up their stamina and keep fit. Go Year 4 Squares!!

CELEBRATING EACH OTHER, AND THE JOURNEY WE ARE ON

Year 1

Year One have been reading 'Yucky Worms' by Vivian French. After finding out how to be a wormologist they went on a worm hunt using magnifying glasses to look carefully at the worms.

Foundation

As part of our learning about 'The Tiger Who Came to Tea', the children visited the local Co-op with their shopping lists, to buy the food they needed for the class tea party.

The really enjoyed the walk, noticing the signs of Spring and places they knew on the way. Well done everyone, you were a delight and great ambassadors for the school.

Year 3

Year 3 have been busy bringing Quentin Blake illustrations to life by crafting modroc sculptures. Starting with newspaper to grasp basic sculpting techniques, they then progressed to modroc to refine their creations. The children have loved transforming their imaginative characters into real life three-dimensional forms. Through this hands-on approach, they delve into the world of storytelling and illustration, merging art with imagination in an engaging manner!

Winners!

On Monday Mrs Griffith gave us the results of our International Women's Day penalty shootout challenge. The highest scorers from each class were awarded certificates and the highest scorers from each key stage won a football. WELL DONE everyone, it was such a great challenge and we all had an awesome time!!

Nasty Nits are a Naughty Nuisance!

They're back – again! Please kindly check you child's hair this weekend and if you find any of the little blighters, please treat them as soon as possible. Thank you!
